25X1 An improvised airfield obviously used by commercial aircraft was about one mile northwest of YEVLAKH (47°09'E/40°37'N), Transcaucasus MD. Twenty aircraft were observed at the field.

25X1 [redacted] Comment:
The field is possibly the field west of YEVLAKH mentioned in a previous report, according to which it is probably used only by DOSAV. Further information is required for a clear picture of the airfields in the vicinity of YEVLAKH.
